Chapter News

January 2014

Monthly Meeting

On January 16, we celebrated our first monthly meeting of the New Year. In this meeting we discussed future activities, including the Chapter’s attendance to the 94th AMS Meeting & 13th Student Conference during the first week of February. The annual Weather Festival, which will be held in March, was also an important topic. Fundraising activities were also discussed, as well as our official shirts, an upcoming Valentine’s Day Pool Party, and a conference with NCAR’s Dr. Mary Barth about Atmospheric Chemistry, that is also in agenda. Attendance was great and we are ready and motivated for this New Year’s upcoming activities for our Local Chapter.
